

INSTITUTE OF EDUCATION
AND SOCIAL INNOVATION

sustainable solutions
for complex social
challenges

ABOUT

INNOVEDU is a **non-profit social solidarity cooperative** dedicated to the development of initiatives promoting **equal opportunities, social inclusion, ecological and digital transformation**

MISSION

To promote the **community's social, economic, and cultural development**, based on **education, entrepreneurship, innovation, solidarity, and high standards of responsibility and sustainability**

VISION

To position itself as a **reference entity in human development** contributing to a **more just and egalitarian society** in a constantly changing world

STRUCTURING PILLARS

- EDUCATION AND TRAINING**
Inclusive education and vocational training programmes that promote equal opportunities, and deepen knowledge, skills, and innovation
- EUROPEAN CITIZENSHIP**
Initiatives to strengthen cooperation among member countries, aiming to reinforce a common identity based on respect for the foundational values and principles of the European Union
- SUSTAINABILITY AND INNOVATION**
Solutions to preserve natural resources, drive economic progress, and build a more equitable and environmentally conscious future

FIELDS OF ACTION

EDUCATION AND TRAINING

In gender equality, pedagogical and didactic practices, school administration and management, leadership, pedagogical supervision, human rights, ethics and professional conduct, sustainability, and digital transformation

SOCIAL INNOVATION

Promotion of new ideas, models, and technologies that generate innovative and sustainable solutions in response to complex social problems, supported by a multidisciplinary team with technical-legal knowledge and skills in planning, leadership, communication, risk management, and negotiation

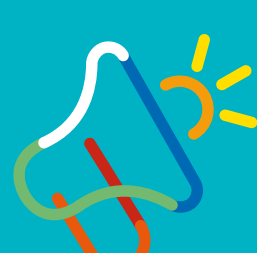

RESEARCH AND EVALUATION

Research and development, programme and policy evaluation, organizational performance monitoring, product and service evaluation, and design of project evaluation models

DIGITAL TRANSFORMATION

Integration of technologies into training processes to achieve efficiency gains, fostering innovation, and enhancing competitiveness; this empowers recipients to implement appropriate mechanisms to address the challenges of resistance to change

COMMUNICATION AND DISSEMINATION

Development of strategic communication and dissemination plans, creation of content, organization and promotion of training events – both national and international, in-person and/or online – and awareness campaigns in social, digital, and environmental aspects
